

FAA Safety Team presents:

FREE WEBINAR - iPad & ForeFlight Basics - A Beginner's Guide to Getting Started

This entertaining and informative 90 minute webinar is designed for someone who is new to or is considering using iPads/iPhones and ForeFlight in the cockpit. This is a great introduction for users that will include what equipment to buy, subscription options, and an overview of some of ForeFlight's amazing features. THIS IS NOT A DETAILED HOW-TO but rather an Overview of the features available and why this program is important to making you safer. Your speaker, Gary Reeves, is one of only a few Master Instructors in California and is the 2014 Flight Instructor and FAAST Member of the Year for the Long Beach FSDO. As an ATP with over 5500 hours he is a true expert on ForeFlight and Garmin Avionics.

Directions: Starts at 6PM PACIFIC TIME

If you can't make the time and date sign up anyway you'll receive an email to watch it online for free anytime for 7 days afterwards.

THIS IS AN ONLINE WEBINAR ONLY! CLICK HERE TO REGISTER

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
